

REPUBLIC OF LOSTISLAND

PROGRAM OF THE
NATIONAL
DEVELOPMENT FOR
2012

Democratization

The Republic of Lostisland should become a democratic nation. For this we should create appropriate institutions, e.g. the Parliament. Not revolution, but evolution will help to our society!

Delavrovisation

Our nation should get rid of the signs of Alexey Lavrov, who wanted to shame Lostisland to the whole world, but actually shamed himself. So, in Orley should be created the new organizations, related to the Democratization and national development.

Dequishlaqisation

The Republic of Lostisland should break out of poverty and backwardness. We need not only a wide recognition, but the high level of national development! Respectively, the Democratization and introduction of novelty into the social life will help us to make Lostisland not a *sovereign quishlaq*, but a developed and advanced nation.
